

Let's care

BUILDING SAFE AND CARING SCHOOLS
TO FOSTER EDUCATIONAL INCLUSION
AND SCHOOL ACHIEVEMENT

Funded by
the European Union

Objectives

- Identifying SOCIO-EMOTIONAL ROOTS behind early school leaving and underachievement in key competences and basic skills.
- Collect data at the European level and analyse the VARIABLES of EDUCATIONAL DISADVANTAGE or inequality.
- Develop EVIDENCE-BASED TOOLS for a caring and supportive educational relationships model.
- Create a NETWORK OF STAKEHOLDERS for supporting policy action and enhancing social impact.
- Develop a caring SCHOOLS COMMUNITY at the European level.
- Advocate and propose POLITICAL RECOMMENDATIONS on caring schools and on combating social exclusion.

Results

- SAFE EDUCATIONAL MODEL: a learning and teaching innovative holistic approach, child-centered. To create a caring environment of mutual understanding.
- TEACHERS' PEER OBSERVATION COLLABORATIVE DYNAMICS: a tool for observing teaching practices focused on relationship and bond with students.
- STUDENT ASSESSMENT: a “personal file” for each student to understand and design the right measures for the student’s development and support.
- SAFE TEACHING TRAINING PROGRAM: a community training program for teachers to enhance teaching competences .
- SAFE EDUCATION AND SAFE TEACHING DATABASES: 2 relational and environmental oriented databases, one of politics and one of practices aimed to improving the care of learners.
- SAFE SCHOOL LABEL: it will offer a perspective of achievement and school engagement based on caring and bonding, which may be especially relevant for students under educational exclusion.
